

We're here to help—at no cost to you

Someone shared this with you because they thought we might be able to support you and your dog.

At Fences For Fido, we believe people love their dogs—and sometimes just need access to resources.

You're not alone.

We may be able to help with:

- A safe, secure fence
- A warm dog house
- Veterinary care and spay/neuter
- Supplemental Pet food support

We believe dogs and families belong together.

A note from us

We know this might not be an easy moment.

Please know:

- We are not here to judge you.
- We are not here to take your dog.
- We are here to support you.

What to expect

We start with a conversation—listening and learning what would be most helpful.

If it's a good fit, we'll work with you to make a plan.

From families like yours

"I hated having her tied up all the time... Now she runs... she's very quiet and actually tires herself out... Thank you guys a lot."

"Thanks a lot for the fenced area for Storm. We had to keep her on a chain... Now she can move about free."

"We spend lots more time together now!"
