

A way to help keep your dog safe at home

This information was shared with you because there may be a concern about your dog's safety or containment.

Fences For Fido is a nonprofit that works with families to help resolve situations like this, at no cost.

We understand that most families love their dogs and are doing the best they can. Sometimes resources like fencing or veterinary care just aren't accessible.

That's where we can help.

We may be able to provide (free of charge):

- A safe, secure fence
- A warm, insulated dog house
- Spay/neuter and veterinary care
- Pet food support when needed

Our goal:

To help you keep your dog safe and at home.

Why this was shared

When dogs don't have safe containment, it can lead to:

- safety concerns
- complaints
- or involvement from animal services

We work to help prevent those situations by offering support early.

What happens next

If you reach out, we'll start with a simple conversation. If it's a good fit, we'll work with you to create a plan and schedule support.

Important to know

- We are not enforcement.
- We are not here to report you.
- We are here to help you resolve the situation.
